

I listen to K-love radio on an FM translator. I would not want to have my signal lost or interrupted. K-love is the radio station I listen to 99% of the time. No other FM station in our area carries the programming and music that K-love does, therefore, if K-love were to be displaced by an LPFM broadcaster with other programming, I would have no other alternative. K-love is a faith based organization that provides information, activities and prayer support that is in the public's interest. Thank you.
